

Central European Forum for Migration Research and
Institute of Statistics and Demography, Warsaw School of Economics
have the pleasure of inviting for a seminar

Population and labour force development scenarios for the EU, 2004-2050

The seminar will be devoted to presentation of the assumptions of population and labour force projections for 23 EU countries (without Cyprus and Malta), as well as for Bulgaria, Romania, Norway and Switzerland for the period 2004 – 2050, prepared in the Central European Forum for Migration Research.

Programme of the seminar:

1. Presentation of the research project – Marek Kupiszewski PhD
2. Fertility and mortality scenarios – Jakub Bijak MSc
3. International migration scenarios – Jakub Bijak MSc
4. Labour force activity scenarios – Katarzyna Saczuk MSc
5. Discussion on the assumptions of the proposed scenarios

The seminar is open for all interested.

The seminar will be held on Monday, **11 October 2004**, at **11.00 am** in the Main Building of Warsaw School of Economics (Al. Niepodległości 162), **Room 151**. The seminar will be held in Polish.
